

Allergen Statement

August 8, 2022

Dear Valued Customer,

Bongards Premium Cheese's natural and process cheese block and loaf products contain only one allergen, milk. However, our process and blended cheese slices not only contain milk allergen, but soy allergen from the soy lecithin used as an anti-sticking agent between slices. None of our products contain sesame. In the past several years, we have been very diligent in identifying and eliminating allergens from our products and production lines to minimize the risk to our devoted customers. As such, our specifications and product labels also reflect any allergen content as per FDA regulations.

Please don't hesitate to contact me directly (my contact information is below) if you have any additional questions or concerns.

Best regards,

A handwritten signature in black ink that reads "Craig Schroeder". The signature is written in a cursive style with a large, prominent "C" and "S".
